

Leading competitor's OIII filter performance

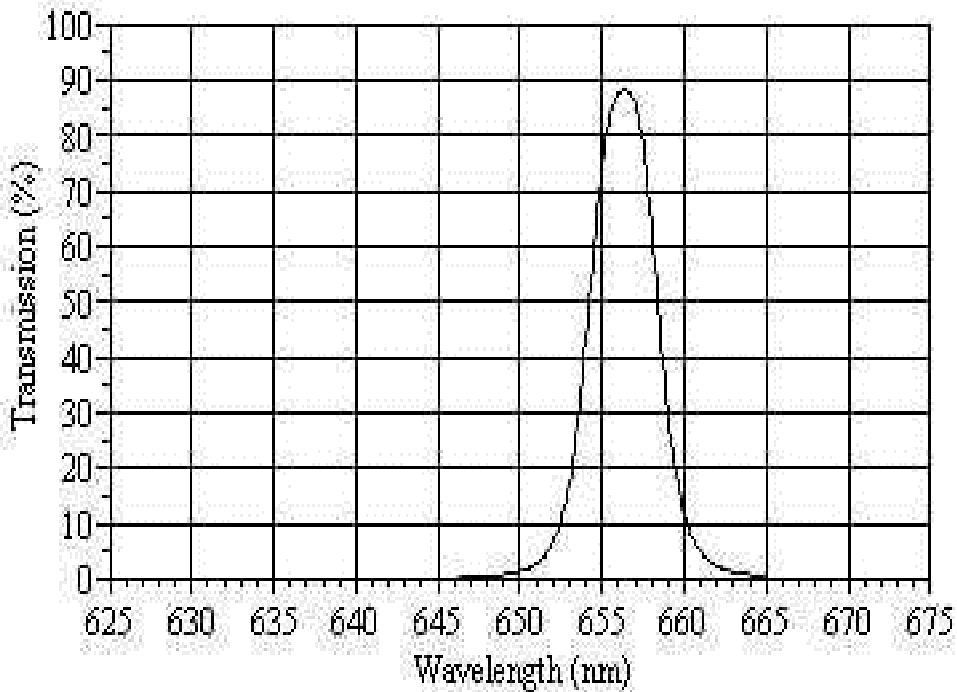

Note: peak transmission of 85%
and FWHM of 4.5 nm

Astrodon OIII filter performance

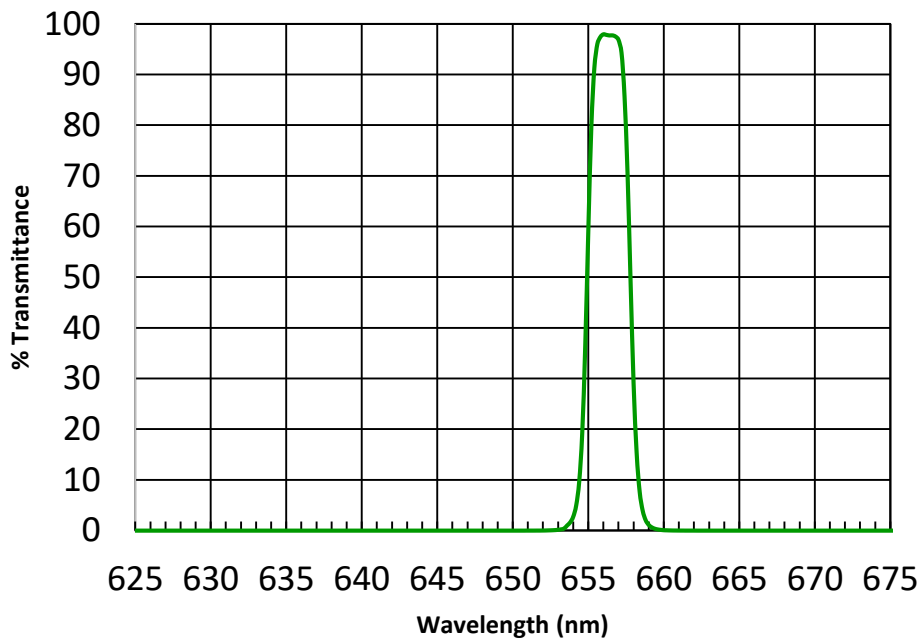

Superior Transmission & Blocking:
Peak transmittance of >92% and FWHM of 3 nm

Leading competitor's H α filter performance

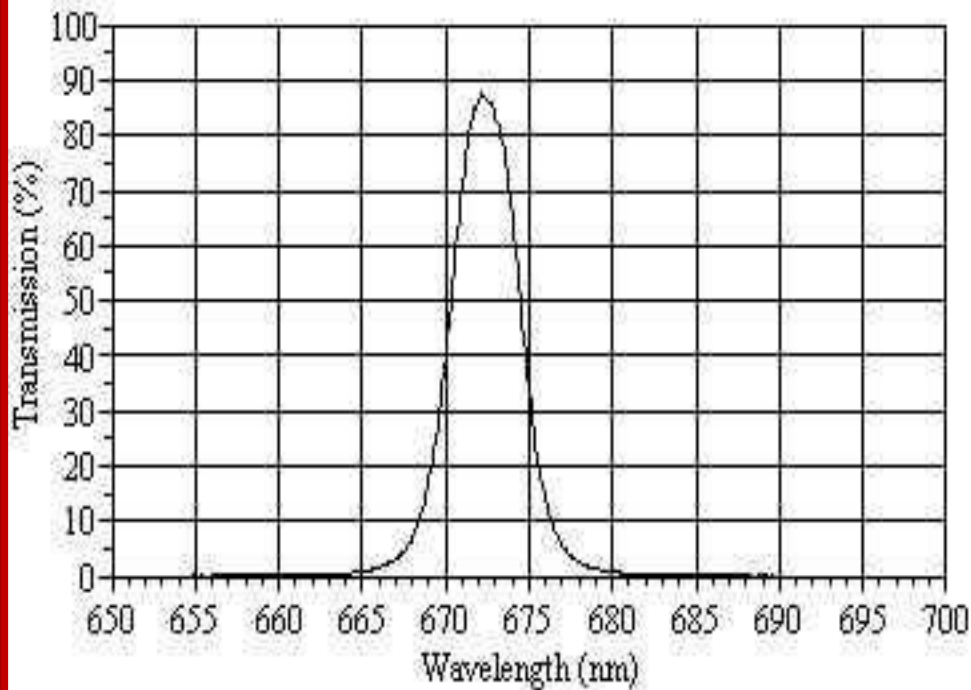

Note: peak transmission of <90%
and FWHM of 4.5 nm

Astrodon H α filter performance

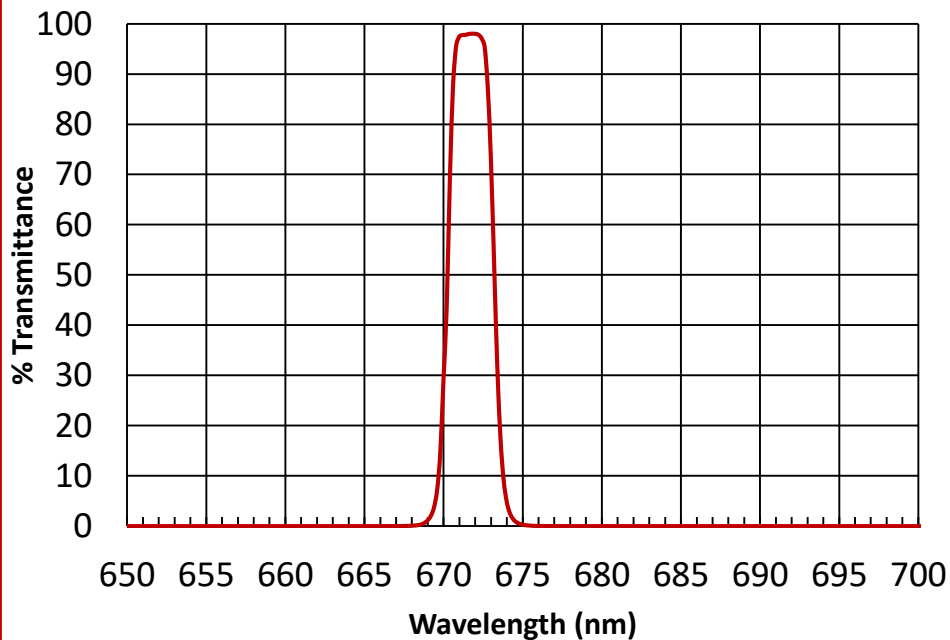

Superior Transmission & Blocking:
Peak transmission of >97% and FWHM of <3 nm

Leading competitor's SII filter performance

Note: peak transmission of <90%
and FWHM of 4.5 nm

Astrodon SII filter performance

Superior Transmission & Blocking:
Peak transmittance of 98% and FWHM of 3 nm
